

NUMBER SENSE

GOAL: To recognize, write, and understand the meaning of numbers 1-10.

Number sense is one of the first math skills taught in kindergarten, focusing on numbers 0-10. Number sense is the understanding of what numbers mean, their value, and their relationship with one another. In addition to the following number practice pages and flash cards, practice counting with your student on their fingers, with coins, beads, mini erasers, etc.

TIP: Make counting fun! Try to challenge your student to count higher and recognize larger numbers each time you practice.
